

Regional Scouting Positions

Neutral Zone is a first-of-its-kind amateur hockey scouting, rankings and news website. Our 35 scouts rank and profile over 7,500 NCAA/CHL/CIS prospects from ages 14-20. Our clients include teams within the NHL, CHL, NCAA, USHL, NAHL, NCDC, and a host of other junior, prep and midget coaches and scouts as well as parents, players and fans. The innovative site leverages top quality, unbiased scouts to evaluate players and track their progress over the course of their amateur careers. Our scouts come from a diverse hockey background including playing, coaching and/or scouting in professional hockey, NCAA, CHL and CIS.

Our site has grown significantly in its first full season online and we are looking to expand in 2017-2018 season. Below is a list of job openings on both our men's and women's site that we are looking to fill.

Please send your resumes and the job you would be applying for to (bcollins@neutralzone.net) for Men's Hockey and (jcameron@neutralzone.net) for Women's Hockey.

Men's Hockey

Western Canada Regional Scouts (British Columbia, Alberta, Manitoba, Saskatchewan) – Covering Bantam, Midget and Junior Hockey

Eastern Canada Regional Scouts (Quebec, PEI, Nova Scotia, New Brunswick, Newfoundland/Labrador) – Covering Bantam and Midget hockey

Minnesota Regional Scout – Covering High School, Juniors and Showcases in the area

Western NY/Central US Regional Scout – Covering Bantams, Midgets, Juniors and showcases in the area

Western US Regional Scout (CA, AZ, TX, NV, WA, CO) – Covering Bantam, Midget & Junior

Midwest Regional Scout (NE, WI, MO, IA, IL, SD, ND) – Covering Bantam, Midget & Junior

Video Scouts – This is the only entry level scouting job we currently offer. Here former players or coaches who are breaking into scouting can fill out pre-scout reports for our regional scouts. These scouts would watch film to help support the regional scout. For example, a scout attends a game and likes the player but didn't see him shoot. He may email the video scout and say pull up his last 10 games and track his shooting. Can he shoot under pressure, does he get pucks to the net, does he shoot to score, does he have power, does he get it off quick, etc.
