

Job Posting (Spring/Summer Help Wanted – Mind Body Hockey)

Mind Body Hockey, located in Saskatoon, Saskatchewan, is looking for passionate individuals (male or female) to join our Spring and Summer programs! We are seeking candidates with playing or coaching experience at the AAA, junior, or college hockey level who are excited to help develop young athletes both on and off the ice.

Part-time and full-time opportunities are available, including roles in on-ice skill development, off-ice shooting instruction, and cognitive skill training. The ideal candidate is creative, resourceful, personable, and an excellent communicator who can engage and inspire athletes of all ages in a positive, high-energy environment.

This is a great opportunity to launch or grow your coaching career with a highly respected business dedicated to Complete Player Development — supporting both ability and confidence through purposeful progression. Candidates with a background in kinesiology, athletic development, or cognitive training will find the cognitive skill development component especially rewarding.

Interested applicants are invited to send their resume and a brief cover letter to mindbodyhockey@gmail.com.
